

Job Description

Job Title: Trainee Biostatistics

Job Reference number (Job ID): CD1746

idorsia

About Idorsia Pharmaceuticals Ltd

Idorsia Ltd is reaching out for more - We have more ideas, we see more opportunities and we want to help more patients.

In order to achieve this, we will develop Idorsia into one of Europe's leading biopharmaceutical company, with a strong scientific core.

Headquartered in Switzerland - a European biotech hub - Idorsia is specialized in the discovery and development of small molecules, to transform the horizon of therapeutic options. Idorsia has a broad portfolio of innovative drugs in the pipeline, an experienced team, a fully-functional research center, and a strong balance sheet – the ideal constellation to bringing R&D efforts to business success.

Idorsia was listed on the SIX Swiss Exchange (ticker symbol: IDIA) in June 2017 and has over 600 highly qualified specialists dedicated to realizing our ambitious targets.

Position

Trainee Biostatistics (6 – 12 months; ideally starting June 2018)

Responsibilities

- Giving support to biostatistics team members with designs of clinical trials, through analysis of existing data, using: statistical methodology (parametric and non-parametric methods for continuous and categorical data, time-to-event analyses, missing data, landmark analyses, Bayesian methods, extrapolation, simulations).
- Support and develop a visualization platform to investigate data patterns on R.

Candidate's Requirements

We are looking for a student who is about to finish his/her MSc or PhD in Applied Statistics and/or Applied Mathematics aiming at getting a first experience in pharmaceutical industry.

The candidate should have good computer skills and knowledge of at least one statistical programming language (e.g. SAS and/or R), strong statistical skills (univariate, multivariate statistical procedures and Bayesian methods), self-learning with good communication skills in English (oral and written).

What Idorsia offers

- Exciting opportunities for development and professional growth within our dynamic organization
- A collaborative and solution oriented environment where you can make a difference
- An innovative and open culture in a truly multicultural environment

Data Privacy
